STANDS AND MOUNTS

STND-07R07-016-01

Wall Mount

The wall mount can be operated as a detachable, wall-mounted base with integrated scanner-to-base magnets, or the mount can optionally be permanently affixed to the scanner via two screws. Includes all hardware needed to mount the Genesis XP 7680g.

STND-18R06-016-01

Vertical Stand

The vertical stand is ideal for table-top applications where increased distance between the scanner and the table is desired. The vertical stand attaches to the back of the Genesis XP 7680g with two screws. Includes all hardware needed to mount the Genesis XP 7680g.

STND-02F07-016-01

Flexible Point-of-Sale Mount

The Flexible POS can be used to mount the Genesis XP 7680g to horizontal or vertical surfaces. Two hinges allow wide range of motion. The base of the flexible POS mount is magnetized for non-permanent attachment to metal surfaces. Additionally, the attachment point between the POS mount and the scanner is magnetized, or the mount can optionally be permanently affixed to the scanner via two screws. Includes all hardware needed to mount the Genesis XP 7680g.
