Customer Support

Technical Assistance

To search our knowledge base for a solution or to log in to the Technical Support portal and report a problem, go to www.hsmcontactsupport.com.

For our latest contact information, see www.honeywellaidc.com/locations.

Product Service and Repair

Honeywell International Inc. provides service for all of its products through service centers throughout the world. To obtain warranty or non-warranty service, return your product to Honeywell (postage paid) with a copy of the dated purchase record. To learn more, go to www.honeywellaidc.com and select **Service & Repair** at the bottom of the page.

Limited Warranty

For warranty information, go to www.honeywellaidc.com and click **Resources > Product Warranty**.

ABOUT THE DISPLAY DOCK

This chapter introduces the Dolphin™ CT40 Display Dock. Use this chapter to learn about the basic dock features and how to connect to the dock.

Note: For more information on the Dolphin CT40 Mobile Computer, go to www.honeywellaidc.com.

About the Dolphin CT40 Display Dock

The Display Dock allows the CT40 to become a personal computer. A monitor, keyboard, mouse, and audio can be connected through the dock via the USB ports. The dock also provides an Ethernet connection.

Out of the Box

Make sure that your shipping box contains these items:

- CT40 Display Dock (CT40-DB)
- Power adapter
- Power cord
- Regulatory Sheet

If any of these items are missing or appear damaged, contact [Customer Support](#). Keep the original packaging in the event that you need to return the Display Dock for service or if you want to store the charger when not in use.

Caution: We recommend the use of Honeywell accessories and power adapters. Use of any non-Honeywell accessories or power adapters may cause damage not covered by the warranty.

Features of the Dock

Note: The dock supports USB direct connections only. The dock does not support USB hub connections, including keyboards with USB port(s).

About the Dock Status LED

Status	Description
Constant Green	The dock is connected through HDMI.
Off	The dock is not connected or lost connection through HDMI.

About the Dock Connectors

Warning: Ensure all components are dry prior to mating terminals/ batteries with peripheral devices. Mating wet components may cause damage not covered by the warranty.

Connect to Power

1. Plug the power cord into the power supply.
2. Plug the power supply cable into the power jack on the back of the dock.
3. Plug the power cord into a standard wall outlet.

Connect to Monitor

Note: See [Monitor Connections](#) for a list of approved connections.

1. Plug the HDMI cable into the dock.
2. Plug the other end of the HDMI cable into the monitor.

Connect to an Ethernet Network

1. Plug the Ethernet cable into the dock.
2. Place the CT40 computer in the dock.

Note: For advanced Ethernet settings, go to www.honeywellaidc.com for the Dolphin CT40 User Guide.

Connect to an USB Device

Note: See [USB Devices](#) for a list of approved USB devices.

Note: The dock supports USB direct connections only. The dock does not support USB hub connections, including keyboards with USB port(s).

Plug the USB type A cable into a USB port on the dock.

USE THE DISPLAY DOCK

Use this chapter to verify and install DisplayLink software on the computer and use the Display Dock.

Check Software on Computer

Before using the Display Dock ensure your computer is running the DisplayLink software.

- If your CT40 computer is powered by Android 8 or higher, your computer has the DisplayLink software installed by Honeywell.
- If your CT40 computer is powered by Android 7 or lower, you will need to install the DisplayLink software.

Install DisplayLink Software

There are two ways to download the DisplayLink software to the computer:

- Download the DisplayLink Presenter app from Google Play.
- Download the DisplayLink Presenter APK provided by Honeywell.

Download the APK

To download the DisplayLink Presenter:

1. Go to www.honeywellaidc.com.
2. Select **Get Resources** > **Software**.
3. Click on the *Technical Support Downloads Portal* link, <https://hsmftp.honeywell.com>.
4. Create an account if you have not already created one. You must login to download the software.

5. Install the *Honeywell Download Manager* tool on your workstation (e.g. laptop or desktop computer) prior to trying to download any files.
6. Navigate to the software. Click on **Software > Computer Devices > Handheld > Dolphin CT40 > Current > CT40 Display Dock**.
7. Select **Download** next to the software zip file.

Install the Software

Note: *The Dolphin CT40 must have power for the entire length of the install process or it could become unstable. Do not attempt to remove the battery during the process.*

1. Swipe up from the bottom of the Home screen to access all apps.
2. Tap **Settings > Provisioning mode** under *Honeywell settings*.
3. Tap the toggle button to turn Provisioning mode **On**.
4. Connect the CT40 to your workstation.
5. On the CT40, swipe down from the top of the screen to see the notifications.
6. Tap **USB charging this device**.
7. Select **Transfer files**.
8. Open the browser on your workstation.
9. Save the DisplayLink Presenter file (*.apk), version 2.3.0 or higher, in one of the following folders on the CT40 mobile computer:
 - **Internal shared storage\honeywell\autoinstall**
Files saved to this folder for installation, do not persist when a Full factory reset or Enterprise data reset is performed.
 - **IPSM card\honeywell\autoinstall**
Files saved to this folder for installation, do not persist when a Full factory reset is performed. However, the software does persist if an Enterprise data reset is performed.
10. Swipe up from the bottom of the Home screen to access all apps.
11. Tap **AutoInstall Settings** and verify **AutoInstall** is enabled.
12. Tap **Packages Upgrade** from the AutoInstall Settings screen. The computer will initiate a reboot and installs the software. When the install is finished, the lock screen appears.
13. Once installation is complete, turn Provisioning mode **Off**.

Insert CT40 Computer into the Dock

Ensure the computer is fully seated into the dock.

The first time you insert the computer into the dock, prompts appear on the screen. Follow the prompts on the screen to:

- Set default for DisplayLink Presenter to open when the USB device is connected.
- Start capturing everything that is displayed on your screen.

Note: *These prompts no longer appear when you insert the CT40 into the dock, unless you left “Don’t show again” unchecked.*

The computer will automatically change to landscape and the resolution will update to the monitor settings.

CONFIGURE THE DISPLAY APP

Use this chapter to learn how to configure the Display Dock settings through the Dolphin CT40 mobile computer.

How to Configure the Display Dock Settings

You can configure the parameters on the computer for the Display Dock using the Display Dock Settings app.

Set Display Dock Settings

The Display Dock Settings app is available from the all apps menu under Settings.

1. Swipe up from the bottom of the Home screen to access all apps.
2. Tap **Settings** > **Honeywell Settings** > **Display Dock Setting**.

Set Monitor Settings

1. Swipe up from the bottom of the Home screen to access all apps.
2. Tap **Settings** > **Honeywell Settings** > **Display Dock Setting**.
3. Choose one of the following options to set the view:
 - Tap **System portrait screen**, to have the computer stay in portrait view.
 - Tap **System landscape screen**, to have the computer stay in landscape view.
4. To set the system resolution, tap **Resolution** and choose one of the following options:
 - **1080 x 1920**
 - **720 x 1280**
5. To set the density, tap **Density** and chose one of the following options:
 - **160**

- **240**
- **320**
- **400**

Set Peripheral Settings

1. Swipe up from the bottom of the Home screen to access all apps.
2. Tap **Settings** > **Honeywell Settings** > **Display Dock Setting**.
3. To set the right mouse button to the back key, tap **Right mouse button** to toggle the feature on or off.
4. Tap **HDMI audio** to toggle between  **Sound to terminal** or  **Sound to external monitor**.

Set Mode Settings

1. Swipe up from the bottom of the Home screen to access all apps.
2. Tap **Settings** > **Honeywell Settings** > **Display Dock Setting**.
3. To set the external monitor mode:
 - Select **Primary Mode** to automatically adjust as configured in settings or
 - Select **Mirror mode** to match the terminals settings.

SPECIFICATIONS

Label Locations

Labels under the dock contain information about the dock including, compliance information, model number, and serial number.

Connected Devices and Specifications

Monitor Connections

Supported Devices

- HDMI versions 1.4 and above
- VGA - supported through HDMI/VGA converter
- DVI - supported through HDMI/DVI converter

Non-Supported Devices

- HDMI splitter for two monitors
- Display Port

USB Devices

Supported Devices

- Standard three button mouse with scroll
- Standard QWERTY keyboard without HUB/USB type A ports on the keyboard
- USB headset/USB to 3.5mm audio converter
- USB mass storage devices (thumb drives), not recommended for large transfers (over 1GB)

Non-Supported Devices

- USB Hubs
- USB devices with additional USB type A ports

Power Supply Specifications

Note: Use only UL Listed power supply which has been qualified by Honeywell.

Output Rating	12 VDC, 3A
Input Rating	100-240 VAC, 50/60 Hz
Operating Temperature	-10°C to 50°C (14°F to 122°F)
Max Terminal Input	5VDC, 2A

Clean the Dock

You may need to clean the dock to keep the dock in good working order. Clean the dock as often as needed for the environment in which you are using the dock with a dry soft cloth:

Mount the Display Dock

You can mount the dock on a flat, horizontal surface such as a desktop or work-bench with an optional DIN rail.

Mouthing hardware required:

- DIN rail
- 3/16-inch diameter x 5/8-inch long pan head screw
- 1/2-inch OD x 7/32-inch ID x 3/64-inch thick washer
- 3/16-inch diameter nut

1. Slide the DIN rail into the slot on the bottom of the dock.
2. Secure the DIN rail to the flat surface with the hardware.
