

# CITIZEN

## The right place to start for industrial printing

Entry level industrial

### Space-saving design concept

The Hi-Open™ case lifts up vertically meaning that the printer's footprint does not change as the cover is opened making it ideal for tight spaces.

### Optional peeler

An optional peeler can be added to the CL-S700DTII giving the peel-and-present function without the height of the full liner rewinder case.

### Easy configuration

The large graphic LCD gives a clear indication of printer status and easy printer configuration.
